

THERMOLEC

ELECTRIC BOILER

The Latest In Technology for

HYDRONIC HEATING

Standard Features

Wide Range of kW Sizes Available

- 5 - 40 kW, up to 136,500 BTU output

Fully Modulating

- Ideal for multiple zone systems
- 15% energy savings versus staged boilers

Outdoor Sensor and Reset Control

- Adjusts water temperature based on outdoor temperature to maximize efficiency and comfort

Electronic Aquastat

- Precise supply water temperature control
- Ideal for radiant floor, baseboard, radiator or hydronic coil systems

Stainless Steel Tank

- Durable, corrosion-resistant heat generator vessel

Compact and Lightweight Design
